

CPVH News

April 2025

Spring is here!

Remember that ear infections and skin infections resulting from allergies can get out of hand FAST!

Don't wait to schedule an appointment if you have ANY concerns that your pet is uncomfortable with allergies or infection.

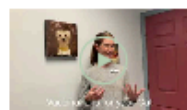

VIDEO RESOURCES

Did you know that we have video resources available on our website?

From ear cleaning and home dental care to administering subcutaneous fluids, we have resources available to help you help your pets!

**Congrats
to the
winner!**

Congrats to the Rust family, the latest winner of our 5-star review raffle! We'll draw another winner from our 5-star Google and Yelp reviewers at the end of April. Thank you in advance!

REFERRALS

Thank you for referring your friends and family members. Our family is growing, and we look forward to continuing to meet new pets and families!

TICK TESTING

Did you know that when we check your dog for heartworm disease every year, we also test for three different tick-borne illnesses? With one small drop of blood, we can know if your pet has heartworms, Lyme disease, Anaplasma, and Ehrlichia. It is surprising how many dogs are positive for tick-borne illness, even those that seem low-risk. Talk with your veterinarian if you have questions about tick-borne illnesses and available protections!
